Objective

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

Experience

- KGE Technologies** 08/2021 - 12/2021
Junior Flutter Developer i
- Novac Technology Solutions** 01/2022 - Till Now
Software Engineer

Skills

- Flutter
- Dart
- GIT
- Firebase
- REST API

Projects

- Zeed (Freelance)**
 - * The gold loan purchase app is a user friendly mobile application designed to facilitate seamless gold loan purchases for customers.
 - * With this app, customers can easily explore various gold loan schemes offered by partnered jewelry shops and make hassle-free purchases.
 - * This app also provides jewelry partners with a platform to showcase their products and attract potential customers.
- School Bus App (Freelance)**
 - * As a freelance developer, I had the opportunity to contribute to a school bus tracking app that aimed to enhance the safety and efficiency of student transportation.
 - * My responsibility revolved around
 - (i) integrating google maps functionality,
 - (ii) implementing polylines for route visualization,
 - (iii) developing pick-up and drop locations pointers.
- SGI Advocate (Published in App store and Play store)**
 - * I had the opportunity to work on the SGI Advocate app, a comprehensive platform designed to streamline legal case management for advocates.
 - * The app aimed to simplify the process of receiving insurer details, handling cases in court.
- IClaim**
 - * I contributed to the development of the IClaim app, a B2B solution designed to simplify the vehicle insurance claims process.
 - * The app facilitated efficient communication between the surveyors and insurers, allowing the upload of accident vehicle images and relevant details for claim assessment.
- INova**
- C2C Vendor App**
 - * Worked closely with designers and product managers to translate UI/UX designs into efficient and responsive code.
 - * Integrated APIs and third-party libraries to enhance app functionality and improve use interactions.
